1. EXECUTIVE SUMMARY & TOPOLOGICAL KINGPIN UNMASKING

Algorithmic analysis of multi-relational CDR logs, banking transactions, and burner SIM churn has unmasked a hidden **Ghost Kingpin** operating behind multiple proxy mule accounts and SIM box exchanges. Standard betweenness centrality was penalised by node degree ($\frac{1}{\log(1+d)}$) to isolate quiet puppet-masters from high-traffic money mules.

3. STATUTORY COMPLIANCE STATEMENT (SECTION 63, BHARATIYA SAKSHYA ADHINIYAM, 2023)

I hereby certify under Section 63 of the Bharatiya Sakshya Adhiniyam, 2023 (replacing Section 65B of Indian Evidence Act, 1872) that:

1. The electronic records, call detail records (CDRs), and bank transaction ledgers contained herein were produced by automated computer systems operating regularly in the ordinary course of investigative activities.
2. The cryptographic hash **SHA-256** displayed below was generated at the moment of evidence ingestion. The integrity of the digital evidence remains un-tampered and mathematically verified.
3. The system was operating properly at all material times without hardware failure or unauthorized operational modification.
